

Healthcare Garden Design

Professional Development Certificate Program

“The program has enriched me both professionally and personally. I will always treasure those eight days as a wonderful learning experience that truly opened my eyes and mind to all the possibilities of true healing garden environments.”

—Natalie M. Symon, Associate, IIDA, LEED AP, Interior Designer, CBLH Design, Inc., student 2009

“....there’s so much more I could say positively about my experience with the course at the Chicago Botanic Garden. Suffice it to say, it was one of the most rewarding experiences of my life, and I know that the people I met, and what I learned will truly benefit me in my endeavors to help others to find joy and healing in the garden.”

—Debbie Antoon, Houston, Texas, student 2012

Healthcare Garden Design

Professional Development Certificate Program

May 15 – 22, 2013

CHICAGO BOTANIC GARDEN
JOSEPH REGENSTEIN, JR. SCHOOL

Healthcare Garden Design Professional Development Certificate Program

From May 15 through May 22, 2013, attendees at the Healthcare Garden Design Certificate Program will discover the many ways that gardens provide verifiable health benefits for their patients, clients, staff, and visitors.

The multidisciplinary program will introduce attendees to the latest research demonstrating the benefits of healthcare gardens, and provide participants with the expertise, knowledge, and tools to effectively design, manage, and evaluate such gardens.

Gardens That Heal: A Prescription for Wellness

This eight-day certificate program begins with a daylong seminar that provides an overview of the rapidly growing and changing world of healthcare garden design. Gardens That Heal: A Prescription For Wellness is ideal for those seeking a one-day introduction to healthcare garden design, while also serving as a critical starting point for the eight-day, in-depth certificate program.

The day-one agenda includes special presentations designed to energize your organization's healthcare garden design program.

Industry-Leading Instructors

The Joseph Regenstein, Jr. School of the Chicago Botanic Garden has brought together some of the nation's most renowned experts in the field of healthcare garden design and research.

Clare Cooper Marcus, professor emerita, Departments of Architecture and Landscape Architecture, University of California, and Principal, Healing Landscapes, Berkeley, California. Internationally recognized for pioneering research on the psychological and sociological aspects of architecture and landscape design.

Jack Garman, FASLA, president, Design for Generations, Medford, New Jersey. Specializes in creating therapeutic exterior environments for senior communities and healthcare facilities, including assisted living and Alzheimer residences, long-term care facilities, and continuing care retirement communities and community hospitals in more than 12 states.

Mark Epstein, ASLA, principal, Hafz Epstein Landscape Architecture, Seattle, Washington. Served as co-chair of the Therapeutic Garden Design Professional Practice Network for the American Society of Landscape Architects. Teaches therapeutic site design at the University of Washington.

Robert Hoover, ASLA, principal, HBLA, Inc., Portsmouth, New Hampshire. Specializes in healthcare, senior living, and residential projects, with HBLA designing more than 100 healthcare related projects throughout the Northeast.

Marni Barnes, ASLA, MSW, principal, Deva Designs, Palo Alto, California. Consults and creates therapeutic landscapes in public and private settings, drawing upon ten years experience as a psychotherapist and social worker, as well as more than 25 years as a landscape designer.

Nilda Cosco, Ph.D., is education specialist, research associate professor, College of Design, co-founder, Natural Learning Initiative, NC State University. Primary research interest is the impact of outdoor environments on child and family health outcomes, particularly as they relate to natural components of the built environment.

Gwenn Fried, Glass Garden, Rusk Institute of Rehabilitation Medicine, New York, New York. A horticultural therapist at the Glass Garden since 1997 and curator of the Rusk outdoor gardens, she focuses on the anthropological uses of plants and weaves these lessons into classes for seniors and children.

Geoffrey Roehll, ASLA, senior vice president, Healthcare Design Team, Hitchcock Design Group, Naperville, Illinois. Since joining Hitchcock Design group in 1990, Roehll has directed many landmark projects in the healthcare market; he focuses exclusively on healing environments and practices evidence-based design.

William Sullivan, Ph.D., professor, Department of Landscape Architecture, University of Illinois at Urbana-Champaign, president of the Council of Environmental Deans and Directors. He focuses his attention on issues related to environmental sustainability and the role of public institutions in creating a sustainable world.

Naomi Sachs, ASLA, MLA, founder and director, Therapeutic Landscapes Network, principal, Naomi Sachs Design, a design and consulting firm focusing on landscapes to acilitate health and well-being. Sachs is collaborating with Clare Cooper Marcus on a book about therapeutic landscapes, to be published by John Wiley & Sons in 2013.

Barbara Kreski, MHS, OTR/L, director, horticultural therapy services, Chicago Botanic Garden. With expertise in a wide range of clinical settings from psychiatric and Veterans Administration hospitals to public schools and pediatric rehabilitation, Kreski brings understanding of the breadth of human disabling conditions.
