Model Railroad Garden Open

Add admission to the Model Railroad Garden to your group visit for only an additional \$5 per person. This unique outside exhibit features 16 model trains on 1,600 feet of track going from coast-to-coast across bridges, through tunnels and past model sized scenes of America's favorite landmarks. The Model Railroad Garden has expanded its western settings this year. The expanded San Francisco area features depictions of Telegraph hill, Coit Tower, cable cars, Lombard Street and the Golden Gate Bridge. The Pacific Northwest area features Mt. Saint Helens and Seattle's waterfront. Other western landmarks include Napa Valley; Yosemite, Yellow Stone, and Mesa Verde national parks; and Hollywood. This unique attraction is open from May 10th through October 26th from 10am to 5pm daily with extended hours until 8pm, June 7th to September 1st.
