

# Tulip bloom time

Tulips vary in size, height, range and beauty. Gardeners use tulips to provide spectacular color for the entire spring season by selecting varieties for early, mid, and late spring.

Every year is different, but typical flowering times for the Chicago area are below:

## **EARLY FLOWERING (MID-APRIL)**

- **Single Early Tulips**
- **Double Early Tulips**
- **Kaufmanniana**
- **Fosteriana Tulips**
- **Greigii Tulips**

## **MID-SEASON FLOWERING (MID-APRIL TO EARLY MAY)**

- **Triumph Tulips**
- **Darwin Hybrid Tulips**

## **LATE-SEASON FLOWERING (THROUGHOUT MAY)**

- **Single Late Tulips**
- **Lily-flowering Tulips**
- **Fringed Tulips**
- **Viridiflora Tulips**
- **Parrot Tulips**
- **Double Late Tulips**

## **VARIABLE BLOOM TIME (MID-APRIL THROUGH MAY)**

- **Rembrandt Tulips**
- **Species Tulips**
- **Multi-flowering Tulips**
